

## Faith/Belief In Self

Regardless of what the religious background is, Game Winners Foundation will inform them that anything they want to achieve in life starts with asking for help from a Higher Power. We are here to encourage individuals to look for that Higher Power before stepping off into the world by themselves to try to fight for their dreams. Besides in addition to acknowledging a Higher Power, the next step is to encourage individuals to believe in themselves.

Game Winners Foundation will prepare them for their journey they will have to take to achieve their goals. Belief in self is critical in identifying and achieving goals. We will assist them in accepting that someone will always doubt them, but as long as they believe in themselves, no one else matters.
